Dear Mayor Rostek and Mayor Henning,

I am donating the following 19 items to the Bleicherode Museum's collection. While I realize your museum does not currently have a curator, I trust these valuable, unique and fragile paper items will be safely stored while the municipal government finds funding to strengthen and renew the museum as a very important part of Bleicherode's culture, education, civic and economic fabric.

The unique history of Bleicherode can be told through interpretive displays of objects about the lives and activities of its people and business community. I envision the Bleicherode Museum becoming an essential and vital attraction to help bring visitors to your beautiful town. I wish Bleicherode much success.
